

Features

Slim Design

Ultra-thin, adhesive-backed asset tracker that securely attaches to virtually any surface.

Battery

Up to 180 days (6 months) of battery life. IATA compliant for air cargo applications.

eSIM

Integrated eSIM for instant activation and deployment.

Tracking Technologies

GPS, Wi-Fi, and LBS positioning for accurate real-time location tracking.

Update Interval

Configurable reporting intervals from 6 minutes to 6 hours.

Sensors

Integrated sensors for monitoring temperature, humidity, light, motion, and shock throughout transit.

Technical Specifications

SIM Interface	Integrated eSIM	Battery type	No Rechargeable Li-MnO2 1800 mAh.
Cellular Network Type	4G (LTE-1) and GSM	LED	1 Status LED On
GNSS Antenna Type	GPS/ GLONASS	Charging Type	No rechargeable
Tracking Technologies	GPS + Wifi + LBS	Temperature Range	-10°C to +70°C
Weight	34 g	Humidity Range	0 to 99% RH
Dimensions	101 mm × 177 mm × 4.7 mm	IP Rating	IP54
Sensors	 Temperature  Vibration	Flight Detection	Yes
	 Humidity  Battery level	Housing Type	Foam Adhesive Label
	 Light		

	B100	B50
